

Jan Hollan

Curriculum vitae, as regards Global Climate Disruption

Born Dec 3, 1955 in Brno, studied physics at Masaryk University in Brno, graduated 1980. Ph.D. at the Faculty of Civil Engineering of the Technical University in Brno in 2009.

Lecturing and writing (in Czech) on the whole scope of climate change, especially on its physical basis since 1990. Teaching on environmental issues including energy efficiency at Masaryk University since 2005, [textbook on climate change](#) for its Faculty of Education published in 2012. Published dozens of Czech/Slovak translations of www.skepticalscience.com arguments or articles, and of some important documents concerning climate change (physics, impacts, mitigation), see <http://amper.ped.muni.cz/gw/>.
