

● Rigel

A star map showing two prominent stars, Rigel and Sirius, and a sequence of seven fainter stars. Rigel is marked with a solid black circle and is located in the upper left quadrant. Sirius is marked with a solid black eight-pointed star and is located in the center. A dashed line of seven stars, each marked with a plus sign, extends from the top right towards the bottom right. The text '< 0.50 mag' is located in the bottom right corner.

★ Sirius

< 0.50 mag
