

A star chart showing several stars. Procyon is marked with a solid black circle in the upper left. Betelgeuse is marked with a solid black circle in the center. Hyades is marked with a solid black circle on the right. Sirius is marked with a solid black star symbol in the lower left. Rigel is marked with a solid black circle in the lower center. There are several other unmarked stars: a single dot at the top center, a single dot at the top right, a pair of dots in the center, and a single dot below Betelgeuse. The chart includes a coordinate grid with tick marks and a label '< 2.50 mag' in the bottom right corner.
