

A diagram showing a curved sequence of stars. The stars are represented by small crosses connected by a dashed line. The sequence curves from the bottom-left towards the top-right. Several stars are labeled with their names and symbols: Sirius (a large star symbol), Procyon (a solid circle), and Rigel (a solid circle). A magnitude limit is indicated as < 1.50 mag. The background is white with a black border.

★ Sirius

● Procyon

● Rigel

< 1.50 mag
