

A star chart of the constellation Canis Major. The chart shows several stars of varying magnitudes. The most prominent stars are labeled: Procyon (top left), Sirius (bottom left, marked with a star symbol), Betelgeuse (center), Rigel (bottom center), and Hyades (top right). A dashed line represents the constellation's outline, and a dotted line indicates a specific path or boundary. The text '< 2.50 mag' is located in the bottom right corner, indicating the magnitude limit of the stars shown.

● Procyon

● Betelgeuse

● Hyades

★ Sirius

● Rigel
