

A star chart of the constellation Regulus. The chart shows several stars of varying sizes and brightness. A vertical dotted line with cross markers runs through the center. The star Regulus is the largest and brightest, located near the center. Denebola is a large star to the left. Polaris is a large star in the top right corner. A small asterisk is located to the right of the center. The text '< 4.50 mag' is in the bottom right corner.

● Denebola

● Regulus

● Polaris

< 4.50 mag
